CATALOGUE & PLANT INFO

WILDFLOWER SOCIETY PLANT SALE 2023

Gates open at 9am. Although early customers have the best selection of plants, we always have a good range of popular species available all morning. Bring a box or a plastic basket with you to take your plants home.

Species are listed on the catalogue in alphabetical order within each category. Natural habitat is given as a guide to selection and planting. Species from SW forests prefer shade and some extra summer water. Many SW swamp species, particularly Boronias, make excellent pot plants. Heathland species are generally hardier and will grow in full sun. Most species, however, are quite adaptable and have been successfully grown by our members in Hills gardens. Many of our plants are not yet available in nurseries.

Whilst we try to make our catalogue as accurate as possible, some listed plants may not be available due to circumstances beyond our control. However we always have small numbers of additional, unlisted species.

Further information on plants will be available inside the hall. We also have seeds of native plants for sale and booklets on aspects of native gardening.

The plants are sorted on the tables alphabetically within each category. The plan of tables is at the back of the catalogue. **We have marked Local species with a yellow disc on the main label.**

ALL PLANTS CONTAIN A COLOUR CODED BAMBOO SKEWER TO INDICATE THE PRICE. SOME HAVE A BAMBOO SKEWER WITH A PRICE ON IT. The code is given to the right. Coloured labels, plant stakes or ties do not indicate price. Select your plants and pay the Cashiers at the gate.

The plants are grown by our members for your gardens. We hope you enjoy our Sale.

A NOTE ABOUT CHANGES TO PLANT NAMES

Our knowledge of the flora of Western Australia is in a constant state of change at the present time. New species are continually being found and the relationships of known species are steadily being revised.

We endeavour each year to keep the names to the most current botanically correct name for the Plant Sale and to this effect we usually make a note in the Common Name or Special Features columns of the catalogue as to the previous name that you might have known the plant so as to help make you aware of the change.

BITS & PIECES TABLE

This year we again have a “Bits & Pieces” table which are plants that are in limited quantities and therefore not on the catalogue and which would get lost in amongst everything else. ***Have a browse, you could find something really special.***

PRICE CODING (COLOUR OF SKEWER)

Yellow	\$2.50	Pale Green	\$4.50
Orange	\$3.00	Pink	\$5.00
Red	\$3.50	White	\$6.00
Blue	\$4.00	Purple	\$7.00

Other Prices as Marked

Please Note: GST will be added to these prices at point of sale at the Cashier Tent

** SOME GREAT IDEAS FOR YOUR GARDEN **

<u>West Australian Wattles</u>	<u>Cockatoo Food</u>	<u>West Australian Grasses</u>
<p>Can be used in a wide variety of garden situations from rockeries, shrubberies to providing shade.</p> <p>Most are very drought tolerant while some like damp situations.</p> <p>Most prefer full sun but some from forest areas will grow in partial shade.</p> <p>There is a variety of sizes and shapes from short and clumpy to tall, slender and elegant.</p> <p>Wattles are great for establishing new gardens in poor soil.</p> <p>Support biodiversity in your garden by supplying vast quantities of food and habitat.</p> <p>Are legumes. This means they supply their own nitrogen and enrich the soil.</p> <p>Grow easily from seed.</p> <p>Give vibrant winter/spring colour.</p> <p>Exhibit a huge range of foliage colours and forms.</p>	<p>All three species of Black Cockatoo could be regular visitors to your garden if you grow a supply of their favourite food.</p> <p>Marri (<i>Corymbia calophylla</i>)</p> <p>Jarrah (<i>Eucalyptus marginata</i>)</p> <p>These are also a vitally important habitat tree for a vast number of species.</p> <p>All Hakeas – beautiful flowering plants similar to Grevilleas but generally with large woody fruits.</p> <p>e.g. <i>Hakea periolaris</i>; <i>Hakea undulata</i>; <i>Hakea orthorrhynca</i>; <i>Hakea trifurcata</i>; <i>Hakea lissocarpha</i></p> <p>All Banksias.</p> <p>e.g. <i>Banksia grandis</i>; <i>Banksia undata</i>; <i>Banksia sessilis</i>.</p> <p>WA Grevilleas.</p> <p>e.g. <i>Grevillea bipinnatifida</i>; <i>Grevillea endlicheriana</i>.</p> <p>(Note: Hybrids are often sterile and do not produce seed.)</p>	<p>Looking for something different? Why not try some grasses?</p> <p>These are not weedy:</p> <p>Most are very drought tolerant while some like damp situations (great around ponds and bog gardens).</p> <p>Some grow naturally in local forests and thrive in shaded areas.</p> <p>There is a variety of sizes and shapes from short and clumpy to tall, slender and elegant.</p> <p>There is a choice of cool or warm season growers.</p>

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Clump Plants (Monocots)							
Anigozanthos	manglesii	Mangles Kangaroo Paw	Spring	Red/Green	0.8	State Emblem. Do not water in summer	LOCAL, sand or gravel
Austrostipa	elegantissima	Feather Speargrass	Oct-Dec	White/grey	0.35-2	Winter active perennial rhizomatous grass. Fluffy flower heads	LOCAL, all soils
Austrostipa	hemipogon	Speargrass	Oct-Feb	Green/purple	0.3-1	Winter active, perennial tuft grass	LOCAL, sandy clay areas
Austrostipa	semibarbata	Bearded Speargrass	Aug-Nov	Green/purple	0.3-1.1	Winter active, tufted perennial grass	LOCAL, most soils
Carex	tereticaulis		Sept-Oct	Brown	0.7	Tufted perennial sedge, black peaty sands	South West
Conostylis	prolifera	Mat Cotton-heads	Aug-Oct	Yellow/cream	0.01-0.2x0.2	Tufted stoloniferous grasslike perennial Flwrs in heads	Most soils. Tolerates damp areas. Suitable for hanging baskets and pot culture.
Conostylis	seorsiflora ssp seorsiflora		Sept to Oct	Yellow	0.02-0.09	Cushion forming stoloniferous perennial.	SW WA. Clayey loam, sand. Damp flats, swamp margins.
Conostylis	setigera	Bristly Cottonheads	Spring	Yellow	0.2	Hardy, slow spreading, tufted perennial	LOCAL forest & heath
Cymbopogon	ambiguus	Scentgrass	Summer	Pale green	0.5-0.8	Clumping plant, dry sites ,responds to summer water	Northern WA
Cymbopogon	obtectus	Native Lemon Grass	Summer	Pale green	-0.7	Scented clumping grass, attractive silky heads	LOCAL, open forest, outcrops
Dianella	revoluta	Blueberry Lily	Spring	Blue	0.8	Large greyish leaves, blue flowers	LOCAL, tough, drought tolerant.
Dichopogon	capillipes	Nodding Lily	Sept to Dec	Purple pink	0.3-1	Local tuberous perennial herb. Understorey plant.	LOCAL Grey sand over limestone, loam, clay, sandy clay, granite, laterite
Eragrostis	elongata	Clustered Lovegrass	Spr/Sum	Mauve	0.3	Summer active perennial clump grass, attractive mauve flower heads	LOCAL, damp areas
Juncus	pallidus	Pale-Rush	Oct-Dec	Cream	0.5-2	Large clumping rush, dry and wet sites	LOCAL Damp spots
Microlaena	stipoides	Weeping Grass	late Spring	Green/Purple	.3-.75	Winter active, perennial tufts, understorey, spreads	LOCAL grass, forest areas
Orthrosanthus	multiflorus	Morning Iris	Sept-Nov	Blue	0.6	Large clumps, free flowering spikes. Spreading clumps	SW plant, most soils
Patersonia	occidentalis	Purple Flags	Summer	Purple	0.5	Hardy and easy to grow. Good for rockeries	LOCAL, most habitats
Rytidosperma	acerosum	Wallaby Grass (formerly Austrodanthonia acerosa)	Sept-Dec	Purple-green	0.6	Winter active, perennial tuft grass, some shade	LOCAL Gravel soil
Rytidosperma	caespitosum	Wallaby Grass (formerly Austrodanthonia caespitosa)	Spring	Purple-green	0.5-0.9	Tufted perennial, ornamental flower-heads	LOCAL everywhere
Samolus	junceus		Sept to Apr	White/Pink	0.25-1.2	Erect or straggling almost leafless perennial herb. Perfumed flowers.	Tolerates winter-wet soils and salt. Will suit sedge and frog gardens.
Sowerbaea	laxiflora	Purple Tassels	Spring	Pink/Purple	0.3	Dormant in summer	LOCAL and inland

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Clump Plants (Monocots) (cont'd)							
Themeda	triandra	Kangaroo Grass	Oct-Nov	Tinged green & rose pink	1m	Perennial with loose tussocks often in extensive patches several square metres. Head of nodding spikelets.	LOCAL
Thysanotus	multiflorus	Fringe Lily	Aug-Nov	Purple	0.4	Showy flowers in heads	LOCAL, all soils
Xanthorrhoea	nana	Dwarf grasstree	Sept-Dec	White/Cream	1	Slow growing tufted perennial	Suits well drained sandy soils in full sun. Ideal rockery or pot plant. Wheatbelt

Ferns & Aquatic Plants

Adiantum	aethiopicum	Common Maidenhair			0.2	Fern gardens, creek banks or pots	SW along riverbanks
Marsilea	drummondii	Common Nardoo	Winter		0.2	Perennial aquatic, semi-aquatic. In drier clays, re-emerges in winter. Spreads by rhizomes.	LOCAL in water or damp soil. Ideal for bog gardens
Marsilea	hirsuta	Nardoo			0.15	Clover-like perennial herb to 15cm. Requires swampy wet conditions.	Good frog habitat and bog plant. Can be used as an aquarium plant. Suits tropical locations.
Ornduffia	albiflora	White Villarsia (formerly Villarsia Albiflora)	Sept-Dec	White	to 1m	Semi-aquatic erect perennial with branching stems to 1m.	Local and from Perth to Albany. Keep moist. Suitable for frog garden or shallow pools.

Everlastings

Podotheca	gnaphalioides	Golden Long Heads	Aug-Nov	Yellow/Orange-yellow	0.02-0.6	Erect or decumbent annual herb.	Variety of soils, tends to favour sandy soils.
Rhodanthe	manglesii	Everlasting	Spr-Summ	Pink	0.4	Annual. Will self-propagate	LOCAL and widespread.
Rhodanthe	chlorocephala	Everlasting	Spr-Summ	Pink	0.5	Annual. Will self-propagate.	Dry inland areas
Rhodanthe	humboldtiana	Everlasting	July – Nov	Yellow	0.1-0.5	Annual. Will self-propagate	Dry inland areas
Schoenia	filifolia	Schoenia	July-Nov	Yellow	0.5	Annual. Will self-propagate	Wheatbelt and goldfields
Xerochrysum	macranthum	Everlastings	Spr-Summ	Creamy white	0.6	Annual. Will self-propagate	LOCAL and dry inland areas

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Climbers							
Billardiera	floribunda	White Billardiera	Summer	White	2-3	Beautiful robust twining shrub.	LOCAL forests
Clematis	pubescens	Old Man's Beard	Spring	White	1-3	Possibly summer dormant, fleshy roots	LOCAL forests
Comesperma	integerrimum		Sept-Nov	Yellow/white/purple	0.3-8	Twining shrub or climber to height of support.	Suits full sun/part shade in sandy, lateritic, limestone and coastal soils. SW WA
Kennedia	beckxiana	Cape Arid Kennedia	Spring	Orange	3-5	Vigorous climber, spectacular flowers	Ideal for scrambling over fences. Cape Arid, heathlands
Kennedia	coccinea	Coral Vine	Spring	Coral Pink	1-2	Pea flowers in dense heads	LOCAL & SW forests
Kennedia	nigricans	Black Kennedia	Spring	Black & Yellow	5-10	Very vigorous climber	Suits most soils including coastal and limestone in full sun/part shade. South Coast WA, from Albany to Esperance

Ground Covers and Rockery Plants

Androcalva	bivillosa		May-Dec	White with pink tinge	0.50 x 2m wide	A dense spreading groundcover.	Prefers well drained soils in full sun/part shade. Suitable for hanging baskets or slopes. Geraldton sandplains
Banksia	bipinnatifida	Ground Dryandra	Oct-Nov	Cream/yellow/brown	0.1-0.3	Prostrate Banksia, flower half buried in the ground, leaves much divided, fern like.	LOCAL, sand, gravel, laterite, woodlands
Dampiera	altissima	Tall Dampiera	June-Oct	Blue	0.5	Mounding ground cover. Masses of blue flowers.	Suits most soils in full sun. Ideal for pot culture or raised beds. Northern sandplains.
Dampiera	coronata	Wedge-leaved Dampiera	Jul-Nov	Blue-purple	0.5	Spreading woody perennial	LOCAL woodlands.
Dampiera	decurrens		Sept-Jan	Purple-blue	0.1-1	Stiff robust perennial	Well drained soils in full sun/part shade. Ideal for borders, rockeries and pots. Esperance Plains
Dampiera	linearis	Common Dampiera	May-Nov	Blue	0.3	Attractive suckering ground cover slowly spreading to 1m wide.	Suits most soils. Full sun to part shade.
Dampiera	spicigera	Spiked Dampiera	Jul-Dec	Blue	0.6	Striking upright perennial.	Well drained soils, full sun. Ideal for pot culture/small gardens. Hardy Northern sandplains.
Darwinia	pinifolia		Sept-Dec or Jan to Feb	Red	0.3	Low spreading to prostrate shrub. Soft foliage, pretty flowers.	Sandy soils, seasonally wet sites. Geraldton sandplains, Swan Coastal Plain.
Disphyma	crassifolium	Round-leaved pigface	Aug-Feb	Deep pink, purple, violet	0.3 x 1	Prostrate succulent	Inland or coastal, salt and lime tolerant. Suits all soils. Full sun.

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Ground Covers and Rockery Plants (cont'd)							
Drosera	binata	Forked Leaf Sundew		White	0.15	Fibrous rooted herb.	Black peat, winter wet swamps. Lower SW WA
Einadia	nutans (Formerly Rhagodia nutans)	Nodding Saltbush	Nov-Apr	Red berries	0.3	Low growing ground cover. Good basket plant. Bright red edible berries.	Well drained soils in sheltered sun. Salt tolerant. Hardy. N, interior and coastal
Enchylaena	tomentosa	Barrier Saltbush	May-Sept	Orange berries	0.6	Hardy ground cover, grey foliage, orange berries	Inland extensive
Eremophila	glabra (prostrate)		Aut-Sum	Various colours		Is one of the most variable and complex species in the genus. It is very variable in its leaves & habit. Colours range from green, yellow, orange or an assortment of reds.	Variety of situations
Eremophila	glabra subsp York		July-Sept	Yellow/Green	0.10 x 1-2 wide	Spreading prostate shrub.	Found between Beverly, York and Dowerin.
Eremophila	subteretifolia		Nov/Dec	orange	0.04 to 0.15	Prostrate groundcover. Spreads to 2m,	Most soils in full sun/part shade. Ideal for slopes & verges. Hardy. Saline and drought tolerant. Declared Rare
Gastrolobium	praemorsum	Cut-leaf Gastrolobium	Aug-Dec	Burgundy red	0.2 x 1	Spreading groundcover to 20cm x 1m. Attractive burgundy-green foliage	Prefers wetter soils in full sun/part shade. Ideal for slopes and cascading over retaining walls.
Goodenia	pusilla	Delicate Goodenia	Summer	Yellow	0.1	Grows well in damp sunny or part shade spots.	LOCAL, SW along creeks
Goodenia	scapigera	White Goodenia	Aug-Dec	White	0.8	Attractive erect perennial.	Variety of soils in full/part sun. Hardy. SW WA
Goodenia	varia		Oct-Jan	Yellow	0.1	Lush groundcover, dainty flowers, hardy, suits hanging baskets	Coastal Mallee
Grevillea	crithmifolia		Jul-Sept	White	0.6-2m	Dense branching shrub.	Coastal near Perth
Hemiandra	pungens	Snake Bush (prostrate)	Summer	Mauve	0.05-1	Prostrate to ascending shrub 0.05-1m with prickly leaves.	From Geraldton to Bremer Bay
Hemiandra	pungens	Shrub form	Spr-Sum	Purple	1	Foliage is fine and spiky, having a purplish hue on the new stems.	Very hardy and adaptable liking well drained soils in full sun.
Hibbertia	grossulariifolia	Gooseberry-Leaved Guinea Flower	Aug-Dec	Yellow	0.2 x 1.2 wide	Prostrate shrub	Most soils in full sun, ideal for coastal gardens in limestone areas. Perth Metro
Hypocalymma	hirsutum		July-Oct	Yellow	0.3	Small spreading groundcover with yellow flowers that become golden with age.	Prefers well drained soils in full sun/part shade. Suits Pot culture or raised garden beds. Northern sandplains
Leptosema	aphyllum	Ribbon Pea (prostrate form)	May-Oct	Red/Yellow	0.2 X 1.5 wide	Unusual spreading prostate groundcover. Flat ribbon-like foliage with red pea flowers.	Well drained soils in full sun/part shade. Suitable for rockeries and verges. Northern sandplains.
Melaleuca	longistaminea		Aug-Oct	Cream	0.3 x 1 wide	Prostrate prickly groundcover to 30cm x 1m wide. Prolific perfumed cream flowers	Suits most soils in full sun/part shade. Limestone tolerant. Hardy. Avon Wheatbelt
Myoporum	brevipes		Sept-Dec	White with purple spots	0.2	Low warty leaved groundcover.	Suits well drained coastal and limestone soils in full sun/part shade

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat

Ground Covers and Rockery Plants (cont'd)

Pelargonium	australe	Wild Geranium	Feb-May or Sep-Dec	Pink/purple/white	0.1-0.5	Decumbent or ascending perennial herb.	Hardy in a range of soils and prefers full sun or light shade. Often found in pockets of deeper soil on the upper slopes of large granite outcrops,
Pelargonium	havlasae		Sept-Oct	White-pink	0.3	Slowly spreading tuberous, perennial herb. Most soils. Good basket plant	Full sun/part shade. SW and wheatbelt
Rhagodia	spinescens	Nodding Saltbush		Red berries	0.1	Widely branched, open spiny shrub. Formerly Rhagodia nutans	N, interior and coastal
Ranunculus	colonorum	Common Buttercup	Sept-Dec	Yellow	0.2-0.8	Slender perennal herb.	LOCAL Winter-wet areas, swamps, hillsides Sandy often clayey soils.
Scaevola	anchusifolia (dwarf form)	Silky Scaevola	May-Aug	Blue	.03 x 06 wide	Dense groundcover.	Well drained soils in full sun. Excellent for coastal areas, limestone and rockeries. Hardy.
Scaevola	argentea		Mar or Sept to Oct	Blue-purple-pink	0.03-0.25	Prostrate much branched shrub.	Grey clay, clay loam, sand. Eastern Goldfields
Scaevola	filifolia	Thread-Leaved Diaspasis was Diaspasis filifolia	Sep-Feb/May	White/pink/purple	0.15-0.5	Erect to sprawling slender perennial herb or shrub.	Sandy or clayey soils, bogs & seasonally wet areas. South coast WA.
Scaevola	phlebopetala	Velvet Fan Flower	May to Dec or Jan	Blue-Purple	0.05-0.3 x 1.0 wide	Prostrate perennial herb with deep purple flowers with yellow throat.	LOCAL Well drained soils in full sun. Hardy.
Scaevola	repens var repens		Aug-Jan	White/cream & pink	0.2 x 1	Prostrate groundcover. Attractive bright green leaves.	Well drained soils. Full sun/part shade.
Stylidium	adnatum	Beaked Trigger Plant	Sept-Nov	Pink	0.3	Excellent in hanging baskets	Karri forest
Stylidium	affine	Queen Trigger Plant	Sept-Nov	Pink	0.4	Hardy, lovely large flowers. Forms small clumps	LOCAL, Wandoo
Stylidium	caespitosum	Fly-away Trigger Plant	Nov-Jan	White/Pink	0.4	Fine leaved rosetted perennial herb.	Sandy loamy soils. Lower SW WA
Swainsona	formosa	Sturts Desert Pea	June – Oct	Red	0.05-0.2	Prostrate annual or perennial. Striking red flowers.	Sandy or loamy soils. Northern WA.
Thryptomene	baeckeacea (prostrate)	Prostrate form	May-Oct	Pink-Purple	0.1 x 1m	Excellent groundcover.	Well drained soil. Full sun/part shade. Drought tolerant once established. Northern sandplains
Wahlenbergia	stricta	Austral Bluebell	Nov	Blue	0.3-0.5	Perennial herb.	Clay, gravel.

Shrubs A- Z

Acacia	alata	Winged Wattle	June-Oct	Yellow	1.0	Fast growing local species, shade	LOCAL, forest gullies
Acacia	celastrifolia	Glowing Wattle	Winter	Yellow	2.5	Bronze tipped leaves	LOCAL, inland

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z							
Acacia	colletioides	Wait a While	Aug-Oct	Yellow	to 3m	Rigid spreading prickly shrub.	Prefers well drained sandy soils in full sun/part shade. Good bird habitat. Wheatbelt
Acacia	congesta		Spring	Yellow	0.5-2.5	Spreading shrub, rocky/heavy soils open dry sites	East of Perth
Acacia	cupularis		July-Dec	Yellow	1-2.5	Open to sub-dense shrub.	Grows in a variety of soils. South West WA
Acacia	declinata	Pallinup Gold	Aug-Sept	Yellow	To 0.4	Dense prostrate shrub with prickly foliage.	Well drained soils in full sun. Drought tolerant. Suits raised garden beds and rockeries. Southern Wheatbelt.
Acacia	denticulosa	Sandpaper Wattle	Spring	Yellow	3.0	Erect sparsely branched shrub with large spectacular rod flowers, fascinating foliage	Drought tolerant. Dry inland areas
Acacia	drummondii var. affinis		Winter/Spring	Yellow	0.5	Attractive ferny foliage. Likes laterite gravels.	Understorey in Wando/Jarrah Woodlands
Acacia	drummondii var. drummondii		Jun-Oct	Yellow	0.3-0.6	Erect, open shrub,	LOCAL and SW WA
Acacia	glaucoptera	Flat Wattle	Aug-Dec	Yellow	1.5	Unusual, ornamental stems/foliage grey-green with red tips	South West
Acacia	glaucoptera	Flat Wattle	Aug-Dec	Yellow	1.5	Unusual, ornamental stems/foliage grey-green with red tips	South West
Acacia	horridula	Prickly Wattle	Winter	Yellow	1	Interesting sharp foliage	LOCAL rocky hills and north
Acacia	lasiocarpa	Panjang	May-Oct	Yellow	0.15-1.5	Compact shrub, hardy	Perth local, Variety of soils from coastal to winter wet
Acacia	lateriticola		Winter	Yellow	1.0	Fast growing local species prefers gravel soils	LOCAL and SW, gravel soils
Acacia	meisneri		Summer	Yellow	1-4	Branching shrub, grows most soils, low water	East of Perth, clay soils
Acacia	microbotrya	Manna Wattle	Spring	Yellow	3-4	Dense foliage, drought resistant	LOCAL, widespread inland
Acacia	pulchella	Prickly Moses	Jun-Oct	Yellow	1.0	Repels dieback	LOCAL forests
Acacia	redolens		Aug-Oct	Yellow	0.5-3	Spreading shrub, from margins of salt lakes	SE Wheatbelt.
Acacia	stenoptera	Narrow-winged Wattle	Mar/Dec	cream/yellow	0.2-0.7	Small sprawling, prickly shrub, extended flwr period	LOCAL and SW
Acacia	subcaerulea		Aut-Wint	Yellow	1-2	Drought tolerant. Ornamental Varied soils	WA, drier south coast

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Acacia	trigonophylla		Aug-Nov	Yellow	1-2.5	Erect, much branched prickly shrub, triangle stems	Widespread SW varied soils
Acacia	truncata		Jun to Sep	Yellow	0.5-2.3	Usually dense, domed shrub.	Sandy soils, Coastal limestone, dunes. Geraldton Sandplains, Swan Coastal Plain.
Astartea	scoparia (formerly Astartea fascicularis)		Wint-Sum	White/pink	1-2	Creeklines or extra summer water, Mass plant	LOCAL, creeklines, swamps
Atriplex	amnicola	Swamp saltbush	July		.3-1.7	Branched, spreading bluish-green, extremely hardy.	Perth-Pilbara, and inland
Babingtonia	camphorosmae	syn. Baeckea camphorosmae	Summer	Pink	0.4	Summer flowering, grows to '0.4m	LOCAL heathland, forest
Baeckea	subcuneata		Aug-Nov	Pink	To 1.8m	Colourful spreading shrub	Prefers well drained soils in full sun/part shade. Suits raised beds or open gardens. Geraldton sandplains.
Banksia	attenuata	Slender Banksia (Dwarf fom)	Oct-Feb	Yellow	1.5	Multi branched shrub with conspicuous yellow cone flowers.	Prefers well drained soils in full sun. Ideal small feature plant and cut flowers. Hardy
Banksia	benthamiana		Nov-Jan	Yellow/orange/brown	2-4	Erect shrub with serrated leaves	Requires well drained soils in full sun. Drought tolerate once established. Avon Wheatbelt.
Banksia	burdettii	Burdett's Banksia	Jan-May	Orange/cream	to 4m	Stunning bushy shrub	Prefers well drained sandy soils in full sun/part shade. Bird attracting and excellent cut flower.
Banksia	fraseri	Formerly Dryandra fraseri	Apr-Sept	Yellow/green-yellow	0.2- 0.6	Semi prostrate to erect shrub	White, grey, yellow or red sand, gravel, laterite, granite. Hillslopes & breakaways.
Banksia	grossa		Mar-Jul	Gold-brown	1	Slow growing shrub with attractive needle-like foliage	Well drained soil in full sun. Hardy once established. Can be pruned hard as it reshoots. Geraldton Sandplains
Banksia	hookeriana	Hooker's Banksia	Winter/Spring	Orange/cream	2	Attractive shrub with serrated leaves. Stunning flowers, light soil	Northern sand plains
Banksia	lemanniana	Lemann's banksia	Oct-Mar	pale yellow/green	3	Glossy leaves, hanging flower cones. Sand/gravel/clay	East WA south coast
Banksia	sessilis var cordata		July-Oct	Cream/Yellow	To 2.5m	Dark green large leafed shrub	Suits full sun/part shade in sandy coastal soils. Limestone tolerant. Bird attracting. WA South Coast
Banksia	shanklandiorum		June-Aug	Pink to golden	To 2.5m	Upright dense shrub	Suits well drained sand or lateritic gravel in full sun. Deep water once or twice in summer. Avon Wheatbelt
Banksia	splendida var macrocarpa		July-Aug	Yellow/orange-red	1.5	Bushy shrub with grey hairy foliage and pendant flowers	Prefers full sun/part shade in well drained sandy or gravelly soils. Lesueur Sandplain
Banksia	sphaerocarpa var pumilio		Apr-Sept	Yellow/Brown	1	Small shrub with pretty ball shaped flowers.	Suits well drained sand or lateritic gravel in full sun. Deep water once or twice in summer. Lesueur Sandplain
Banksia	undata	Urchin Dryandra (formerly Dryandra praemorsa)	Spring	Yellow	1-3	Woolly branches leaves and flowers	Variety of soils

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Beaufortia	elegans	Elegant Beaufortia	Aug-Feb	Bright pink	0.3-1 x 1.2 wide	Upright shrub, showy flowers	Well drained soils. Full sun/part shade. Will tolerate winter-wet. Hardy. Northern Swan Coastal Plain.
Beaufortia	orbifolia	Ravensthorpe Bottlebrush	Aug-Dec	red/green	2.0	Attractive erect or spreading shrub, with unique red/green bottlebrush flowers.	Suits most soils in full sun. Suits open garden beds. Tip prune to shape. Esperance Plains
Boronia	clavata ssp clavata		Aug-Oct	Yellow-green	1.5	Upright slender shrub with small delicately perfumed bell shaped flowers.	For most soils. Suitable for pot culture, borders and damp areas. Esperance Plains. Declared rare.
Boronia	crenulata	Aniseed Boronia	Apr-Aug	Pink	0.75	Pretty small shrub. Shade & mulch	Suitable for pot culture, borders and damp areas. SW forest, heath
Boronia	dichotoma		Aug-Dec	Dark Pink	0.75	Erect, slender perennial to with stunning flowers.	Prefers some moisture in full sun/part shade. Sandy or loamy soils. Suits edge of bog garden/winter wet areas. Prune for more flowers.
Bossiaea	pulchella	Beautiful Bossiaea	Aug-Sep	Yellow/Brown	1.0	Heart shaped leaves. Laterite gravel, understorey/shade	LOCAL, Jarrah forests
Bossiaea	walkerii		Jul – Nov	red/red orange	0.5-2.5	Erect dense leafless shrub.	Goldfields and Murchison. Red or yellow sand, clay, limestone. Near salt lakes, limestone ridges and cliffs, granite rocks.
Callistemon	phoeniceus	Fiery Bottlebrush	Spring	Red	2-3	Grey foliage, dark flowers	LOCAL along watercourses
Calothamnus	gilesii		Nov-Dec	Red	2.5	Tall windbreak plant, granites, sands, dry exposed sites	Wheatbelt and desert
Calothamnus	planifolius		Sep-Nov	Deep purple-red	To 1.5	Erect, many-branched shrub with unusual flat leaves and corky stems.	Suits most soils in full sun. Hardy. Bird attracting. Tip prune to shape.
Calothamnus	quadrifidus	One Sided Bottlebrush	Sep-Nov	Red	1.0	Wonderful for birds. Most soils	LOCAL heathlands
Calothamnus	quadrifidus subsp homalophyllus	Murchison Claw Flower	Aug-Nov	Red	2-3	Broad leaves, tolerates most soils, dry open situations.	Murchison, Geraldton
Calothamnus	rupestris	Mouse Ears	July-Nov	Dark Pink	3.0	Bird attracting. Rounded, hardy prickly shrub. Most soils	LOCAL granite areas
Calothamnus	sanguineus	Silky Leaved Blood Flower	July-Dec	Red	0.3	Erect to open spreading shrub, hardy. Good rockery plant. Most soils	LOCAL and widespread
Calothamnus	sp.		June-Dec	Red	2	Upright shrub with showy red flowers.	Suits most soils in full sun. Hardy. Bird attracting. Limestone tolerant. Prune regularly to shape. Perth Metro
Calytrix	acutifolia		Apr-Dec	White	.2-2.6	Spreading shrub, soft foliage, nice flower sprays. Versatile	LOCAL and widespread SW
Calytrix	chrysantha		Dec-Feb	Yellow	1.3	Very attractive shrub with deep green foliage.	Prefers well-drained soils in full sun. Good container plant. Geraldton Sandplains Priority 4.
Calytrix	depressa		Early Sum	Yellow	0.2-1	Colourful upright neat bush. Drought resistant	LOCAL hills plant
Calytrix	flavescens	Summer Starflower	Oct-Jan	Yellow	0.3-0.8	Spectacular small shrub	Well drained soils in full sun/light shade. Ideal for rockeries and containers. Perth Metro & SW WA

Calytrix	leschenaultii		June-Nov	Purple	0.15-1	Colourful upright shrub.	Well drained soil in full sun/part shade. Ideal for pot culture and small gardens. Tip prune after flowering. SW WA
Calytrix	sp yellow		Aug-Oct	Yellow	0.6	Spectacular small shrub to 60cm. Stunning yellow flowers	Well drained soil in full sun. Ideal for feature areas in the garden. Also suits pot culture.
Calytrix	strigosa	Arrowsmith Starflower	Aug-Dec	Purple pink	1	Colourful semi-prostrate shrub.	Well drained soils in warm sunny position. Suits pot culture and small gardens. Northern Sandplains
Calytrix	strigosa	Arrowsmith Starflower (Anthill form)	Aug-Dec	Purple pink	1	Spectacular mounding shrub.	Well drained soils in warm sunny position. Accent plant for open gardens. Northern Sandplains
Calytrix	tetragona	Common Fringe-Myrtle (Upright form)	Oct-Nov	White	0.2-1.5	Narrow upright shrub.	Suits most well drained soils in dappled shade to full sun. Limestone tolerant. Southern WA.
Chamelaucium	axillare	Esperance Waxflower	Sep-Dec	White	1.2	Erect open shrub. Waxy white flowers aging to red.	Prefers well drained soils in full sun. Suits pot culture. SW WA coast.
Chorizema	cordatum	Flame Pea	Wint/Spr	Red/Orange	0.6	Compact hardy shrub	LOCAL
Chorizema	ilicifolium	Holly Flame Pea	Aug-Nov	Red/Orange	1.0	Attractive foliage; brilliant flowering shrub. Hardy	LOCAL, forests
Commersonia	borealis		July-Nov	White	1.5	Attractive open shrub.	Well drained soils. Prefers sheltered location in full sun/part shade. Suitable for screening. Light trim after flowering. Geraldton Sandplains
Commersonia	erythrogyna		Aug to Oct	Creamy white	To 1.5	Threatened small shrub. Understorey plant so does well under trees in the garden.	Best with occasional summer water. Laterite soils. From southern forests around Boyup Brook.
Coopernookia	georgei	Mauve Coopernookia	Jul-Nov	Pale Blue	1	Slender shrub.	Well drained soil in full sun/part shade. Esperance plains. Declared rare
Cyanothamnus	ramosus	Blue Boronia		July-Oct	0.4	Small many branched shrub with tiny delicate flowers.	For well drained soils in part shade. Suitable for pot culture. Perth Metro
Darwinia	citriodora	Lemon Scented Darwinia	Spring	Yellow/Orange	0.8	Lemon scent. Hardy local shrub	LOCAL, granite rocks
Darwinia	foetida	Muchea Bell	Oct-Nov	Green/Brown	0.7	Spreading upright shrub, often under shrubs using them for support.	Smelly green/brown flowers Oct-Nov. Prefers damp grey-sand to wet clay soils in part shade.
Darwinia	Sp Mt Burdette		March or August	Red/White	0.5	Many stemmed shrub with downward facing flowers.	Adaptable to many soil types.
Darwinia	oldfieldii		Spring	Dark red	0.6	Small shrub with showy rflowers	Prefers well drained soils in full sun. Suitable for open sunny gardens. Hardy. Geraldton Sandplains
Daviesia	cordata	Bookleaf	Spring	Orange	1.2	Ornamental with interesting foliage	LOCAL forests
Daviesia	epiphyllum		Apr-July	Red/Orange	1.5	Shrub with very unusual flattened staghorn-like silver leaves	Suits well drained sandy lateritic soils in full sun. Geraldton Sandplains
Dodonaea	ceratocarpa	Hop Bush	May/Oct	Cream/green	0.1-0.5	Spreading to erect rounded shrub.	LOCAL, granite soils

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Dodonaea	inaequifolia		Aug-Oct	Red	0.7-5	Erect fine leaved shrub or tree	Suits well drained sandy or lateritic soils in full sun/part shade. Northern Wheatbelt
Eremaea	beaufortioides	Orange Eremaea	Sept-Dec	Orange	1.0	Colourful spreading shrub	Well drained soils in full sun. For open gardens or pot culture. Light trim after flowering. Hardy. Sandy heathland
Eremaea	purpurea		Oct-Nov	Pink-Purple	0.4-2	Colourful erect shrub	Prefers well drained sandy soils in full sun. For open gardens or pot culture. Light trim after flowering.
Eremophila	calorhabdos	Red Rod	Spr-Summ	Deep Pink	2	Hardy shrub magenta pink flowers crowded along stems	Suits well drained soils in full sun. Prune to form denser shrub. Drought tolerant. Arid inland areas
Eremophila	ciliata		Sept	Blue purple	1.5	Bushy spreading shrub.	Esperance. Threatened flora.
Eremophila	complanata		Spr-summer	Pink-Purple	2	Erect wispy shrub, flowers well.	Most soils in full sun/part shade. Suitable for large gardens, cut flowers. Prune regularly after flowering. Hardy. Avon Wheatbelt
Eremophila	decipiens	Slender Fuchsia	All year	Orange/ red	0.1-1.8	Small hardy shrub, most soils incl. Salt. Sunny position	Extensive WA
Eremophila	decipiens ssp decipiens	Slender Fuchsia	Feb-Mar or May-Dec	Red	0.25-1.8	Erect or low sprawling shrub.	Full sun/part shade. Red sandy and clayey soils. Hardy. Bird attracting Wheatbelt and adjoining pastoral country.
Eremophila	decipiens ssp linearifolia	Bundabandi Red	July-Jan	Red	1.0 x 1.5	Colourful rounded shrub. Bird attracting	Most soils. Full sub/semi shade. Hardy. Northern sandplains
Eremophila	denticulata	Toothed Eremophila	late spring	red	0.5-2.5	Easy to grow, full sun/ dappled shade, most soils	SW WA
Eremophila	drummondii x nivea		Spring	Lilac/ mauve	to 2m	Floriferous sparse erect shrub.	Prefers well drained sandy, loam or lateritic soils in full sun/part shade. Tip prune for more flowers
Eremophila	glabra		Aut-Sum	Various colours		Is one of the most variable and complex species in the genus. It is very variable in its leaves & habit. Colours range from green, yellow, orange or an assortment of reds.	Variety of situations
Eremophila	glabra ssp junana		Spring	Red	to 1m	Spreading shrub with stunning deep red flowers.	Variety of soils.
Eremophila	glabra ssp tomentosa		Apr-Nov	Orange/Red	0.5-2	Erect shrub.	Suits well drained soils, especially coastal sands and limestone. Best in full sun. Prune to shape.
Eremophila	hillii	Hills Emu Bush	Aug-Dec	Red	0.3-0.8	Dense spreading shrub	Suits most well drained soils, including limestone. Prefers full sun. Long-lived and hardy. Nullabor
Eremophila	lehmanniana		July-Nov	Blue/purple	to 1.5m	Upright spreading shrub.	Suits most soils in full sun/part shade. Salt tolerant. Hardy. Light prune regularly. Northern Wheatbelt through to east of Albany
Eremophila	mackinlayi		Aug-Dec	Purple-Blue	2	Stunning grey furry leafed spreading shrub	Prefers well drained soils in full sun/part shade. Hardy and waterwise. Murchison

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Eremophila	maculata	Native Fuchsia	All Year	Purple	1.5	Hardy outstanding colourful ornamental. Large purple flowers. Bird attracting.	Suits most soils in full sun to light shade. Goldfields.
Eremophila	maculata	Native Fuchsia	All year	Red	1.5	Spreading shrub, harsh conditions	Grows in a wide variety of soils.
Eremophila	maculata 'Aurea'	Aurea	All year	Yellow	1.2	Hardy ornamental	North West
Eremophila	maculata ssp. brevifolia	Pink form	July-Sept	Pink	1.5	Very colourful round shrub	Suits most soils except coastal in full sun/part shade. Hardy and waterwise. Bird attracting. Pilbara
Eremophila	maculata ssp. brevifolia	Pale Pink form	July-Sept	Pink	1.5	Very colourful round shrub	Suits most soils except coastal in full sun/part shade. Hardy and waterwise. Bird attracting. Murchison
Eremophila	nivea	Silky Poverty Bush	Aug-Oct	Pale Violet	0.5	Silver white leaves.	Inland, Mulga. Grows in sandy clay, clay loam and most soils and is drought tolerant.
Eremophila	pantonii	Broom Bush	Jul to Sep or Dec	Purple	0.6-3	Upright shrub with silvery foliage with massed purple flowers.	Well drained soils in full sun. Drought hardy. and lime-tolerant. Responds well to pruning.
Eremophila	racemosa	Showy Eremophila	Sep-Dec	Purple	1.0	Hardy	Inland
Eremophila	serrulata	Green Fuchsia Bush	Apr-Oct	Green	1.5	Attractive erect shrub with tubular flowers.	Prefers well drained open garden beds in full sun. Tolerates winter-wet. Eastern Goldfields.
Eremophila	subangustifolia		June-Oct	Lilac	1-2.5	Erect, spreading much branched shrub emitting strong smell.	Near Eneabba. Threatened Flora.
Eremophila	subfloccosa	Dense-felted Eremophila	June-Dec	Yellow/Green	1.0 x 2	Attractive low spreading shrub, soft silver hairy leaves.	NE Wheatbelt, Goldfields Full sun, semi-drought tolerant. Sandy/laterite/loam
Eremophila	weldii		Jun-Jan	Violet	0.1-1.5	Hardy and pretty small shrub	Goldfields
Eremophila	youngii		winter	pink	1-5.4	Highly floriferous erect shrub.	Will suit most soils in full sun. Drought and limestone tolerant. Gascoyne
Frankenia	pauciflora	Seaheath	June-Feb	White	0.5	Prostrate to ascending shrub t	Limestone and salt tolerant. Suits most soils in full or part sun. Tip prune. Hardy. Perth Coastal
Gastrolobium	ebracteolatum		Oct to Dec	Yellow/red/purple	to 4m	Slender erect shrub.	LOCAL , loam or sandy loam, riverline areas, swampy woodlands. SW WA and Geraldton sandplains.
Gompholobium	aristatum		July-Dec	Yellow	0.8	Small erect shrub.	LOCAL, Suits sandy clay, loam or gravelly soils in full sun/part shade. Tolerates wetter locations.
Gompholobium	scabrum	Painted Lady	Aug/Nov	Pink/Purple	0.4-2.3	Erect to spreading shrub	Grows in sandy soils sometimes over laterite. Nth of Perth and SW WA
Gompholobium	tomentosum	Hairy Yellow Pea	Spring	Yellow	0.5	Small shrub with fine light green hairy foliage	LOCAL Suits a range of soils including limestone. Part to full sun.
Grevillea	asparagoides		July-Dec	Pink/Red	0.5-2	Dense very prickly shrub with spectacular large pink/red flowers	Prefers full sun in well drained sandy or gravelly loam soils. Excellent bird habitat. Avon Wheatbelt

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Grevillea	endlicheriana	Spindly Grevillea	Spring	Pink	1.5	Extended flowering period	LOCAL, granite soils
Grevillea	eristachya	Flame Grevillea	Jan-Dec	Yellow/Orange	1-5	Spectacular bushy shrub with long thin flower spikes.	Suits well drained sandy soils in full sun. Bird attracting.
Grevillea	pimelioides		Jun-Sep	Yellow	1.5	Lovely soft foliage, yellow-orange flowers	LOCAL, forests
Grevillea	quercifolia	Oak-leaf Grevillea	Aug-Dec	Pinky purple	0.5	Straggly to sprawling, little branched shrub. Local forest.	LOCAL
Grevillea	synapheae	Catkin Grevillea	Spring	Cream/Yellow	0.3	Compact hardy shrub	LOCAL, forest
Grevillea	wilsonii	Native fuchsia	Jan-Nov	Red	0.4-1.0	Erect, compact to spreading shrub. Has lignotuber	LOCAL, lateritic soils, grey sands, sandy loams.
Guichenotia	ledifolia		July-Oct	Blue/Purple/PINK	.4-1.5	Dense spreading shrub with masses of lantern shaped flowers.	Excellent coastal plant but suits any well drained soil in full sun. Limestone tolerant. Cut flowers. Hardy.
Gunniopsis	quadrifida	Sturts Pigface	Most of Year	White	0.3	Compact rounded succulent shrub. White star-shaped flowers most of the year but especially in summer.	Most soils (including saline) in full sun.
Hakea	corymbosa	Cauliflower Hakea	Jun/Sep	Cream/white – Green/Yellow	0.5-2	Ornamental dense rounded shrub	Well drained soil in full sun. Good bird habitat. Hardy.
Hakea	francisiana	Emu Tree	May-Dec	Pink	2-4	Erect Shrub, spectacular in flower	Northern Wheatbelt
Hakea	lissocarpha	Honey Bush	Spring	White to Pink	1.0	Erect to sprawling sweetly perfumed prickly dense shrub, masses of flowers	LOCAL Bird attracting and ideal bird refuge. Well drained soil in full sun/part shade.
Hakea	marginata		Aug-Sept	White	1.0 – 5.0	Erect to spreading dense shrub.	Sand and loams with clay and gravel, in heath or woodland. Frost tolerant. Waterways and creek gullies. Jurien Bay to Kalgoorlie
Hakea	multilineata	Grass-leaved Hakea	June-Sept	Pink	1.5-5	Spectacular feature shrub to 5m. Stunning spikes of pink flowers.	Dry inland areas. Wheatbelt, Goldfields, Esperance plains.
Hakea	obtusa		Sep	White/Pink	1.5-2	Dense, multi-stemmed, rounded shrub with smooth grey bark.	Loamy clay, gravel and ironstone in shrubland. Sunny aspect with good drainage. Ravensthorpe & Fitzgerald River National Park.
Hakea	prostrata	Harsh Hakea	Aug-Oct	White-cream	1-3	Open prickly shrub. Sweet scented flowers.	LOCAL, widespread
Hakea	trifurcata	Two leafed Hakea		White	1.5-3	Floriferous bushy, prickly shrub. Attracts birds	Grows most soils including limestone. LOCAL and widespread
Hakea	undulata	Wavy-leaved Hakea	Spring	White	1.5	Hardy. Reddish-coloured new foliage.	LOCAL
Hakea	verrucosa		May-Aug	Red/pink/white	0.8-3.0	Erect, spreading shrub.	Ranging from Jerramungup along the coast to Esperance. Sandy-loam, clay and gravel in heath and low woodland. Requires well drained site.
Hemigenia	tichbonii	Paul Mauve form	Aug-Oct	Mauve	1	Upright open shrub to 1m with many attractive pale mauve tubular flowers	Prefers well drained soils in full sun. Excellent container plant.

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Hibbertia	commutata		July-Nov	Yellow	0.6	Erect or sprawling, multi-stemmed shrub	LOCAL Suits well drained soils in full sun/part shade and particularly suitable for lateritic soils.
Hibbertia	glaucophylla	was Hibbertia rupicola	Mar-Dec	Yellow	0.6	Soft small shrub.	Well drained soils, full sun/part shade. Limestone tolerant. Ideal for coastal gardens.
Hibbertia	porongurupensis		Sept-Oct	Yellow	to 1.5m	Attractive upright shrub with grey/green foliage.	Well drained soils in full sun/part shade. Suitable for sheltered locations and raised beds. Jarrah Forest
Hibbertia	subvaginata		July-Dec	Yellow	.15-1.2	Erect, Compact, sometimes prostrate shrub with blue green leaves.	LOCAL, Well drained soil in full sun/part shade. Hardy.
Hovea	pungens	Devil's Pins	May-Nov	Purple	1.0	Prickly shrub, popular local garden plant	LOCAL, granite rocks
Hypocalymma	asperum		Feb-Mar	Pink	0.3-0.9	Small compact shrub	Prefers well drained soils in full sun/part shade. Suits pot culture and small gardens. Good for summer colour. Esperance Plains
Hypocalymma	cordifolium		Sept-Jan	White/Pink	0.3 x 1.5	Low spreading shrub.	Prefers well drained soils in full sun/part shade. Suits pot culture and small gardens. Good for summer colour. SW Forests
Hypocalymma	gardneri		Aug-Sept	Yellow	0.3-1.0	Bushy shrub producing attractive dense yellow flowers along the stem.	Well drained soil in full sun/part shade. Suits raised beds and pot/basket culture. Tip prune after flowering. Geraldton sandplain.
Hypocalymma	puniceum	Large Flowered Myrtle	Dec-Apr	Deep pink	0.75	Low spreading shrub. Good in dry sunny positions in gravelly sands and loams	Prefers well drained soils in full sun. From Wheatbelt
Hypocalymma	robustum	Swan River Myrtle	Spring	Pink	0.7	Erect, slender shrub.	LOCAL understorey plant from Jarrah & Marri areas and coastal plains. Grows in most soils. Responds to light pruning.
Hypocalymma	strictum		Oct-May	Pink	0.2-1	Small pretty shrub, masses pink flwrs.	Suits most well drained soils in a sheltered location. Cut flowers. Butterfly attracting. From August to Albany & Esperance sandplain.
Hypocalymma	xanthopetalum	Yellow Myrtle	July-Oct	Yellow	0.15-1	Attractive spreading low shrub, masses flwrs long period. Light prune after flowering. Hardy	Well drained soil in full sun. Suits raised beds and rockeries. Light prune after flowering. Hardy. Geraldton sandplain.
Indigofera	australis	Southern Indigo	July-Sept	Purple	1.5	Fast growing hardy shrub with sprays of purple flowers. Benefits from early pruning	Tolerates wet conditions
Isopogon	pandurtus ssp pandratus		July-Sept	White	1.5	Rounded upright shrub with broad leaves	Prefers well drained grey or yellow sandy soils in full sun/part shade.
Isopogon	scabriusculus ssp stenophyllus		Aug-Oct	Pink/Purple	1.5	Erect many branched shrub with long vertical leaves	Prefers well drained sand or sandy gravel soils in full sun. Southern Cross
Kunzea	micromera		Sept-Oct	Pink/Purple	0.3-1.5	Sparse round shrub with terminal clusters of flowers	Suits full sun/part shade in well drained sandy, loamy or clayey soils. Tolerates extra water. Southern Wheatbelt
Kunzea	pauciflora		Aug-Nov	Cerise pink	1.2	Colourful compact shrub. Hardy. Suits pots. Hardy	Prefers well drained soils in full sun. Limestone tolerant.

PLANT	NAME	Common Name	Flowering	Colour	Ht m	Special features	Natural Habitat
Shrubs A- Z (Cont'd)							
Kunzea	recurva		October	Mauve	2.0	Attractive and hardy local shrub	LOCAL, winter wet areas
Lechenaultia	biloba	Blue Lechenaultia	Spring	Blue	0.2	Upright small shrub with stunning blue flowers.	LOCAL, all soils in full sun/part shade. Ideal for rockeries and pot culture. <u>Lightly prune after flowering</u>
Lechenaultia	expansa		Oct to Dec or Jan	Blue-purple/blue-white	0.15-0.6	Small spreading shrub with terminal heads of blue flowers.	LOCAL. Most soils in part shade. Suits small gardens or pot culture in sheltered location. Also suitable for bog gardens.
Lechenaultia	floribunda	Pink Flowering Lechenaultia	All Year	Pink	0.6	Spreading bushy small shrub/groundcover for sandy soils. Pink flowers cover the plant all summer. Great plant for mass planting in borders in full sun. Hardy	Free drained soils. Perth Metro
Lechenaultia	formosa (yellow)		May-Nov	Yellow	0.2-0.4	Spectacular small shrub with stunning yellow flowers	Well drained sandy soil in full sun. Suits pot culture and raised beds. Likes extra moisture.
Lechenaultia	formosa x biloba	Blue Butterflies (Natural Hybrid)	Aug-Oct	Blue		Impressive compact shrub/groundcover. Stunning blue flowers.	Suits most soils in full sun. Suitable for raised beds, open gardens and pots.
Lechenaultia	linarioides	Yellow Lechenaultia	Jan to Dec	Cream/yellow with red tinge	to 1.2m	Sprawling open shrub.	Well drained soils in full sun. Ideal for coastal sands and limestone. Pot or rockery culture.
Lechenaultia	superba	Barrens Lechenaultia	May-Nov	Red/Orange	0.7	Erect spreading shrub, hardy	Well drained soils in full sun to part shade. Ideal for rockeries or pot culture.. Esperance Plains

Santalum	spicatum	Sandalwood	Mar-June	Red	2-5	Hemiparasitic on roots.	Widespread

Understorey Plants

Hills residents know that trying to grow plants under the shade of a big Marri tree can be a challenge. Their hungry roots and the lower level of sunlight doesn't suit all plants. Here is a list of plants (some of which are in our plant sale) that should not mind growing in the shade or part-shade.

Clumping Plants:

Microlaena stipoides
Neurachne alopecuroidea
Orthrosanthus laxus
Sowerbaea laxiflora

Climbers:

Hardenbergia comptoniana
Kennedia coccinea

Ground Covers:

Kennedia prostrata
Labichea punctata
Scaevola caliptera

Shrubs:

<i>Acacia alata</i>	<i>Hakea amplexicaulis</i>
<i>Acacia pulchella</i>	<i>Hakea cyclocarpa</i>
<i>Bossiaea pulchella</i>	<i>Hakea lissocarpa</i>
<i>Chorizema cordatum</i>	<i>Hakea trifurcata</i>
<i>Chorizema dicksonii</i>	<i>Hovea pungens</i>
<i>Chorizema ilicifolium</i>	<i>Hovea trisperma</i>
<i>Darwinia citriodora</i>	<i>Phyllanthus calycinus</i>
<i>Gompholobium knightianum</i>	<i>Trymalium ledifolium</i>

Trees:

Banksia grandis

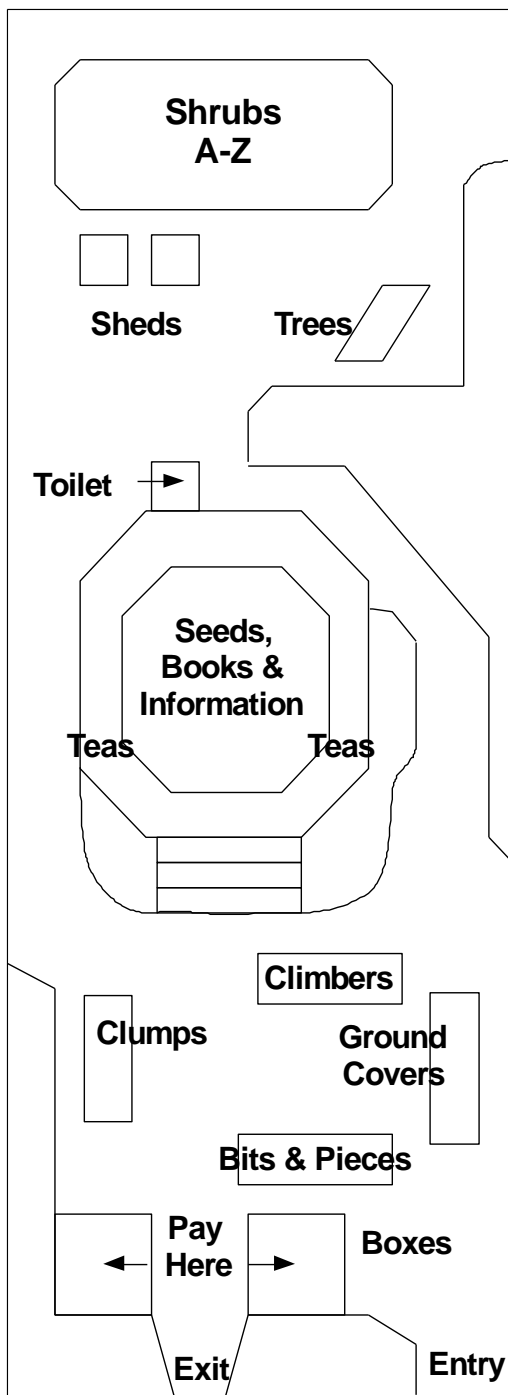

POT RECYCLING

What do you do with the pots from the plants you've bought today after you've got them all into the ground?

Please bring them back! We're especially looking for the long black pots known as tubes, which are best for native plants. We'd love to recycle them back to the growers so they can grow more lovely plants for next year's sale.

Just place them in the yellow wire trolley on the verandah of the Octagonal Hall. The front gate is open anytime.
